PRESS RELEASE

PROPOSAL FOR THE ERECTION OF 84 DWELLINGS FOLLOWING OUTLINE APPROVAL IN 2013

By way of background, Newport Parish Council's July meeting was attended by representatives of Cala Homes in respect to planning application UTT/16/1574/DFO. Further to that meeting, Cala Homes have asked to meet with Newport Parish Council to discuss some of the points raised in detail. There is insufficient time to do this in a public meeting before our response is required to be received by the District Council (note, the application currently has outline permission).

Accordingly, Newport Parish Council has decided to meet with Cala Homes and our District Councillors so that we can put residents' views in detail and try to influence Cala's plans.

The purpose of this press release is to inform interested residents that this meeting will take place. A report of the meeting will be presented to the August meeting of Newport Parish Council.

Andrew Yarwood
Chairman of Newport Parish Council
